

Pierre Ayotte

Chief Executive Officer, Terranueva Corporation

Mr. Ayotte is a graduate in Mechanical Engineering and Flight Test Engineering. With over 40 years of experience in Aeronautics, he has worked internationally and developed extensive expertise ranging from Engineering and Operations Management to Business Development and Management.

He has successfully revived several companies, such as a GE plant in Mirabel, Mecachrome, the DCM Group Inc. and, most recently, Tekalia aeronautik. He is recognized as a strong promoter of the smart factory.

He is currently a shareholder and the Chief Executive Officer of Terranueva Corporation, a public company (CSE: TEQ) that has recently obtained licenses for the culture, transformation and sale of medicinal marijuana from Health Canada.

Mr. Ayotte also sits on the Board of Directors of the Quebec Veterans Foundation; whose mission is to support veterans experiencing difficulty to successfully transition to civilian life and contribute to the well-being of veterans residing in Ste. Anne's Hospital.
